# Hello LATEX World

#### Jucheol Moon

Computer engineering and Computer Science California State University Long Beach jucheol.moon@csulb.edu

#### Abstract

This document is a model and instructions for  $\LaTeX$  'article' class.

## 1 Introduction

Welcome to the LATEX world.

#### 2 Ease of Use

## 2.1 Maintaining the Integrity of the Specifications

The 'article' class is used to format your paper and style the text. All margins, column widths, line spaces, and text fonts are prescribed.

# 3 Styling Guide

#### 3.1 Abbreviations and Acronyms

Define abbreviations and acronyms the first time they are used in the text, even after they have been defined in the abstract.

### 3.2 Equations

$$\sum_{n=0}^{\infty} \frac{af^n}{n!} (x-a)^n \tag{1}$$

(1) is the famous Taylor series. Use "(1)", not "Eq. (1)" or "equation (1)", except at the beginning of a sentence: "Equation (1) is . . ."

Taylor series in a text would be  $\sum_{n=0}^{\infty} \frac{af^n}{n!} (x-a)^n$ .

### 3.3 Lists

Bullet style list.

- $\bullet$  item 1
- $\bullet$  item 2
- $\bullet$  item 3

Number style list.

- 1. item 1
- $2. \ item \ 2$
- 3. item 3

## 3.4 Figures and Tables

**Positioning Figures and Tables** Figure captions should be below the figures; table heads should appear above the tables. Insert figures and tables after they are cited in the text. Use the abbreviation "Fig. 1".

Table 1: Table Type Styles

Table	Table Column Head		
Head	Table column subhead	Subhead	Subhead

Figure 1: Working example

#### 3.5 Algorithms

```
\begin{array}{l} i \leftarrow 10 \\ \text{if } i \geq 5 \text{ then} \\ i \leftarrow i-1 \\ \text{else} \\ \text{if } i \leq 3 \text{ then} \\ i \leftarrow i+2 \\ \text{end if} \\ \text{end if} \end{array}
```

#### 3.6 Source codes

```
public class HelloWorld {
   public static void main(String[] args) {
       System.out.println("Hello, World");
   }
}
```

#### 3.7 References

Please number citations consecutively within brackets [1]. The sentence punctuation follows the bracket [2]. Refer simply to the reference number, as in [3]—do not use "Ref. [3]" or "reference [3]" except at the beginning of a sentence.
